

3 Month Program

Billing Compliance Program

Solidify Your Billing Compliance

Billing compliance is, without a doubt, one of the highest financial risks to your organization. Anxiety from questioning your compliance level can be eased when you know you are doing everything possible to seek out and mitigate risks.

Our customized Billing Compliance Program is designed to provide your team with education and guidance to research, audit, mitigate, and report the biggest compliance risk items associated with billing. Medicare is actively seeking "false claims" activity, and all payors have beefed up their compliance game. ***Our program will arm you with the knowledge and tools to prevent, find, and mitigate billing compliance errors.***

This is an actionable program that navigates participants through a comprehensive understanding of compliance, as well as guided audits for high compliance risks in billing.

This Program Includes:

Tool Kit:

- Billing Compliance Grid Template
- Billing Compliance Crosswalks (if appropriate)
- Audit Tools for high compliance risk areas
- Audit Compliance Assessment Form Template

Guided Mentorship: One-on-One Sessions

Compliance Issues Education

- Gain a high-level understanding of navigating payor policies, risk areas, common audits, and compliance terms
- Comprehend how to document compliance efforts
- Deep dive into the most common compliance risk areas

Putting into Action

- Guidance in conducting "real-time" audits for high-risk billing compliance items
- Assistance in completing effective compliance reports
- Develop a customized plan for ongoing compliance

This customized program is built around a quarter (3-month) period and can be extended month to month, as necessary.
