

Cerner Optimization Assessment & Support Solutions

Maximize the Power of Cerner

Utilizing an overarching understanding of interdepartmental process workflows and in-depth knowledge of Cerner capabilities, our highly skilled team of experts break down communication barriers and bridge the gaps, **allowing you to harness and maximize the power of Cerner.**

Initial Assessment:

Kickoff call to run through timelines & expectations

Review & assessment of your current Cerner build

Review of patient chart workflows

Optimization assessment findings, recommendations, & next steps

Customized department work plans to optimize the financial & clinical synergy within your Cerner system

Customized Support Package:

Now that you have the work plans resulting from our deep dive into your Cerner build, what's next? We will build a customized support package to give your teams the guidance and tools to get from **Point A to Point B: an optimized Cerner platform!**

Your customized support package could include:

- Nurse Informatics Coverage
- Facility Report & Query Development
- Customized Individual, Department, & Facility Education
- Cerner to Facility Liaison & Mediation
- Phone-a-Friend Support
- **Customized System Builds & Modifications to Make the System Work for You!**
